

SAN FERNANDO VALLEY NINETY-NINES PILOT PROFICIENCY SEMINARS FALL 2010

Seminars to be held at the Van Nuys Flyaway (2nd Floor Community Meeting Room), 7610 Woodley Ave., Van Nuys, CA 91406
To ensure adequate seating and availability of course materials, please register and pay for seminars at least 48 hours in advance.

Limited seating – pre-registered attendees have priority. ***DISCOUNT SEASON PASSES AVAILABLE***

Go to: www.sfv99s.org/seminars for additional information, online registration and payment information

Thurs. Sept. 16 7:00pm-9:30pm	<u>Back Country Flying</u> Using stunning aerial and wildlife photography combined with video, humor and inspiring stories, “Skychick” will take the audience on an exciting, educational and memorable journey. The presentation will include safety aspects of mountain flying including getting in and out of rough, short, high-altitude, no-go-around, canyon airstrips. She will also discuss the dangers and visual illusions that are experienced when landing on a dry lake bed in the middle of a barren desert on a hot summer day. SPECIAL OFFER: Free aerobatic lesson at CP Aviation in Santa Paula	with Ramona Cox \$37.50
Sat. Sept. 18 9:00am-4:00pm	<u>Annual Pilot Refresher Seminar</u> A review of the topic areas implicated in light aircraft accidents, incidents and violations as well as airworthiness, airspace, aerodynamics and human factors. This seminar will satisfy the ground portion of a Flight Review. (Time allows for a 1-1/2 hour lunch break.) SPECIAL OFFER for all attendees of this seminar: a certificate redeemable for 1 hour of refresher training with Gene and 1/2-hour IFR training in a simulator (131 Frasca or similar device, courtesy of Bob Crystal).	with Gene Hudson \$70.00
Thurs. Sept. 23 7:00pm-9:30pm	<u>GPS and Glass Cockpit Revealed</u> This seminar explores practical, hands-on usage of your plane’s GPS, with particular emphasis on the “button-ology” of the Garmin 430/530 units. Includes a basic overview of “glass cockpits,” how these systems – driven by computerized flight management systems – differ from the conventional mechanical gauges in displaying flight information. SPECIAL DOOR PRIZE: 1/2-hour “Discovery Flight” in Cirrus SR20 at Mach 1 Aviation	with Jason Price \$37.50
Sat. Sept. 25 9:00am-4:00pm	<u>Flying Companion Seminar*</u> A one-day “mini” ground school for the non-pilot, to help the non-pilot become more comfortable in the aircraft as well as be of help to the pilot. Topics covered include basic aerodynamics, loading the aircraft, radio work, reading aeronautical charts, and flight planning. (Time allows for a 1-1/2 hour lunch) *Does not qualify for WINGS credit	with Bertie Duffy \$70.00
Thurs. Sept. 30 7:00pm-9:30pm	<u>Flying Light Sport Aircraft in Southern California</u> Everything you wanted to know about light sport flying: transitioning from private pilot status, availability of aircraft in the area. If you’re having difficulty maintaining your medical for private pilot privileges, this is important information for you. More details will appear on the SFV 99s website.	with Kent Pramhus \$37.50
Sat. Oct. 2 9:00am-4:00pm	<u>Incident Survival</u> Denise will share her wealth of experience in guiding us to a clear understanding of what is needed for survival after an unintended, off-airport landing. She covers tools and emergency kits, as well as medical factors to consider, and first aid in the event of injuries. She will also debunk common myths about survival preparations. Seminar will include some “hands on” demonstration of survival techniques.	with Denise Edwards \$70.00
Thurs. Oct. 14 7:00pm-9:30pm	<u>High-Speed Cruise Over the Aviation Law Landscape</u> This seminar will provide a broad overview of legal matters of interest to aviators. Particular topics to be covered will include FAA regulation and enforcement, and aircraft ownership issues. Time will be allotted for questions of general interest...and perhaps even for answers! SPECIAL DOOR PRIZE: a free case of aviation oil, courtesy of Able Air Corporation (based at WHP).	with John D. Lyon, Esq. \$37.50
Sat. Oct. 16 9:00am-4:00pm	<u>IFR Refresher Course</u> A seminar designed for the instrument-rated pilot who would like to review the fundamentals of instrument flying and for the pilot who is considering adding instrument privileges to their license. (Time allows for a 1-hour lunch break.) SPECIAL DOOR PRIZE: A free helicopter flight courtesy of Adventure Helicopter Tours based at WHP.	with Alan Johnson \$70.00
Thurs. Oct. 28 7:00pm-9:30pm	<u>Stall/Spin Awareness</u> What You Don’t Know Can Hurt You. Upwards of 20% of the fatal stall/spins occur with CFI’s on board! Find out what you need to know to avoid stall/spin accident scenarios. He touches on insightful spin studies and spin recovery techniques and procedures, including THE PARE® PROCEDURE – A Battle Plan for the Inadvertent Spin. Review the results of NASA spin tests, the results of a survey of test pilots, and the results of a survey of aerobatic schools specializing in spin training. What your POH never taught you!	with Rich Stowell \$37.50
Thurs. Nov. 4 7:00pm-9:30pm	<u>So You Finished Your PPL</u> Pointers for students about to take the check-ride and for newly minted pilots - what pitfalls do you need to be aware of? Judy will provide some common sense advice for flying locally, 1 - 2 hour trips that will expand your skills without getting you into trouble, who should be your first passengers, etc.	with Judy Phelps \$37.50
Thurs. Nov. 18 7:00pm-9:30pm	<u>IFR Risk Management</u> This seminar will cover various IFR scenarios and will discuss how to manage and minimize your risk when flying in Instrument Meteorological Conditions. Bob shows you how to “build fences” for safety.	with Bob Crystal \$37.50
